¹Statistics presented for years ending in 2 and 7 are census data. Interim census years are derived in a representative sample of manufacturing establishments canvassed in the Annual Survey of Manufactures (ASM).

²For the census, a company is defined as a business organization consisting of one establishment or more under common ownership or control.

³Includes establishments with payroll at any time during the year.

⁴Number of employees figures represent average number of production workers for pay period that includes the 12th of March, May, August, and November plus other employees for payroll period that includes the 12th of March.

Note: The data in this table are based on the 2002 Economic Census and the 2002 Annual Survey of Manufactures (ASM). To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain sampling errors and nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C.

Table 2. Industry Statistics for Selected States: 2002

[States that are a disclosure or with less than 100 employees are not shown. Data based on the 2002 Economic Census. For information on confidentiality protection, nonsampling error, explanation of terms, and geographical definitions, see note at end of table. For information on geographic areas followed by *, see Appendix D. For meaning of abbreviations and symbols, see introductory text]

¹Some payroll and sales data for small single-establishment companies with up to 20 employees (cutoff varied by industry) were obtained from administrative records of other government agencies rather than from census report forms. These data were then used in conjunction with industry averages to estimate statistics for these small establishments. This technique was also used for a small number of other establishments whose reports were not received at the time data were tabulated. The following symbols are shown where estimated data account for 10 percent or more of the figures shown: 1—10 to 19 percent; 2—20 to 29 percent; 3—30 to 39 percent; 4—40 to 49 percent; 5—50 to 59 percent; 6—60 to 69 percent; 7—70 to 79 percent; 8—80 to 89 percent; 9—90 percent or more.

²Includes establishments with payroll at any time during the year.

³Number of employees figures represent average number of production workers for pay period that includes the 12th of March, May, August, and November plus other employees for payroll period that includes the 12th of March.

Note: The data in this table are based on the 2002 Economic Census. To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C. For geographical definitions, see Appendix D.

Table 3. Detailed Statistics by Industry: 2002

[Data based on the 2002 Economic Census and the 2002 Annual Survey of Manufactures (ASM). For information on confidentiality protection, sampling error, nonsampling error, and explanation of terms, see note 2 at end of table. For meaning of abbreviations and symbols, see introductory text]

Item	Value
322214, Fiber can, tube, drum, and similar products manufacturing	
Companies ¹	number.. 133
All establishments ²	number.. 261
Establishments with 1 to 19 employees	number.. 99
Establishments with 20 to 99 employees	number.. 149
Establishments with 100 employees or more	number.. 13
All employees ³	number.. 9 292
Total compensation	\$1,000.. 415 762
Annual payroll	\$1,000.. 322 845
Total fringe benefits	\$1,000.. 92 917
Production workers, average for year	number.. 7 590
Production workers on March 12	number.. 7 432
Production workers on May 12	number.. 7 620
Production workers on August 12	number.. 7 673
Production workers on November 12	number.. 7 569
Production worker hours	1,000.. 14 925
Production worker wages	\$1,000.. 237 661
Total cost of materials	\$1,000.. 1 138 671
Materials, parts, containers, packaging, etc., used	\$1,000.. 1 008 224
Resales	\$1,000.. 105 479
Purchased fuels	\$1,000.. 7 217
Purchased electricity	\$1,000.. 15 310
Contract work	\$1,000.. 2 441
Quantity of electricity purchased for heat and power	1,000 kWh.. 260 728
Quantity of electricity generated less sold for heat and power	1,000 kWh.. 2 946
Total value of shipments	\$1,000.. 2 015 151
Primary products value of shipments	\$1,000.. 1 811 403
Secondary products value of shipments	\$1,000.. 68 482
Total miscellaneous receipts	\$1,000.. 135 266
Value of resales	\$1,000.. 133 151
Contract receipts	\$1,000.. D
Other miscellaneous receipts	\$1,000.. D
Primary products specialization ratio	percent.. 96
Value of primary products shipments made in all industries	\$1,000.. 1 860 277
Value of primary products shipments made in this industry	\$1,000.. 1 811 403
Value of primary products shipments made in other industries	\$1,000.. 48 874
Coverage ratio	percent.. 97
Value added	\$1,000.. 877 460
Total inventories, beginning of year	\$1,000.. 143 321

Materials and supplies inventories	\$1,000.. 96 952
Total inventories, end of year	\$1,000.. 141 740
Finished goods inventories	\$1,000.. 37 112
Work-in-process inventories	\$1,000.. 10 237
Materials and supplies inventories	\$1,000.. 94 391
Gross value of depreciable assets (acquisition costs) at beginning of year	\$1,000.. 710 733
Total capital expenditures (new and used)	\$1,000.. 47 268
Buildings and other structures (new and used)	\$1,000.. 2 352
Machinery and equipment (new and used)	\$1,000.. 44 916
Automobiles, trucks, etc., for highway use	\$1,000.. 1 685
Computers and peripheral data processing equipment	\$1,000.. 1 538
All other expenditures for machinery and equipment	\$1,000.. 41 693
Total retirements	\$1,000.. 21 766
Gross value of depreciable assets at end of year	\$1,000.. 736 235
Depreciation charges during year	\$1,000.. 45 033
Total rental payments	\$1,000.. 26 730
Buildings and other structures	\$1,000.. 16 361
Machinery and equipment	\$1,000.. 10 369
Total other expenses ⁴	\$1,000.. 181 773
Response coverage ratio ⁵	percent.. 93
Repair and maintenance services of buildings and/or machinery ⁴	\$1,000.. 20 742
Communications services ⁴	\$1,000.. 4 111
Legal services ⁴	\$1,000.. 1 390
Accounting, auditing, and bookkeeping services ⁴	\$1,000.. 1 074
Advertising and promotional services ⁴	\$1,000.. 589
Expensed computer hardware and supplies and purchased computer services ⁴	\$1,000.. 1 271
Refuse removal (including hazardous waste) services ⁴	\$1,000.. 2 034
Management consulting and administrative services ⁴	\$1,000.. 4 790
Taxes and license fees ⁴	\$1,000.. 5 245
All other expenses ⁴	\$1,000.. 140 528

¹For the census, a company is defined as a business organization consisting of one establishment or more under common ownership or control.

²Includes establishments with payroll at any time during the year.

³Number of employees figures represent average number of production workers for pay period that includes the 12th of March, May, August, and November plus other employees for payroll period that includes the 12th of March.

⁴Based on Annual Survey of Manufactures (ASM) sample data.

⁵A response coverage ratio is derived for this item by calculating the ratio of the weighted employment (establishment data multiplied by sample weight) for those Annual Survey of Manufactures (ASM) establishments that reported to the weighted total employment for all ASM establishments classified in this industry.

Note 1: The amounts shown for other expenses reflect only those services that establishments purchase from other companies.

Note 2: The data in this table are based on the 2002 Economic Census and the 2002 Annual Survey of Manufactures (ASM). To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain sampling errors and nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C.

Table 4. Industry Statistics by Employment Size: 2002

[Data based on the 2002 Economic Census. For information on confidentiality protection, nonsampling error, and explanation of terms, see note at end of table. For meaning of abbreviations and symbols, see introductory text]

Employment size class	E ¹	All establishments ²	All employees		Production workers			Value added (\$1,000)	Total cost of materials (\$1,000)	Total value of shipments (\$1,000)	Total capital expenditures (\$1,000)

¹Some payroll and sales data for small single-establishment companies with up to 20 employees (cutoff varied by industry) were obtained from administrative records of other government agencies rather than from census report forms. These data were then used in conjunction with industry averages to estimate statistics for these small establishments. This technique was also used for a small number of other establishments whose reports were not received at the time data were tabulated. The following symbols are shown where estimated data account for 10 percent or more of the figures shown: 1–10 to 19 percent; 2–20 to 29 percent; 3–30 to 39 percent; 4–40 to 49 percent; 5–50 to 59 percent; 6–60 to 69 percent; 7–70 to 79 percent; 8–80 to 89 percent; 9–90 percent or more.

²Includes establishments with payroll at any time during the year.

³Number of employees figures represent average number of production workers for pay period that includes the 12th of March, May, August, and November plus other employees for payroll period that includes the 12th of March.

⁴Some payroll and sales data for small single-establishment companies with up to 20 employees (cutoff varied by industry) were obtained from administrative records of other government agencies rather than from census report forms. These data were then used in conjunction with industry averages to estimate statistics for these small establishments. Data are also included in respective size classes shown.

Note: The data in this table are based on the 2002 Economic Census. To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C.

Table 5. Industry Statistics by Primary Product Class Specialization: 2002

[Data based on the 2002 Economic Census. For information on confidentiality protection, nonsampling error, and explanation of terms, see note at end of table. For meaning of abbreviations and symbols, see introductory text]

Industry or product class code	Industry or primary product class	All establishments ¹	All employees		Production workers			Value added (\$1,000)	Total cost of materials (\$1,000)	Total value of shipments (\$1,000)	Total capital expenditures (\$1,000)

	1997.. N		X	X	94 132

Note 1: For some establishments, data have been estimated from central unit values that are based on quantity-value relationships of reported data. The following symbols are used when percentage of each quantity figure estimated in this manner equals or exceeds 10 percent of published figure: p-10 to 19 percent estimated; q-20 to 29 percent estimated. If 30 percent or more is estimated, figure is replaced by S.

Note 2: The data in this table are based on the 2002 Economic Census. To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C.

Table 6b. **Product Class Shipments for Selected States: 2002 and 1997**

[Product classes covered are those that are economically significant and whose production is geographically dispersed, provided dispersion is not approximated by data in Table 2. Also, product classes are not shown if they are miscellaneous or "not specified by kind" classes. Statistics for some states are withheld because they are either less than \$2 million in product class shipments or they disclose data for individual companies in 2002. Data based on the 2002 Economic Census. For information on confidentiality protection, nonsampling error, explanation of terms, and geographic definitions, see note at end of table. For information on geographic areas followed by *, see Appendix D. For meaning of abbreviations and symbols, see introductory text]

 1997..	120 046

Note: The data in this table are based on the 2002 Economic Census. To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C. For geographical definitions, see Appendix D.

Table 7. Materials Consumed by Kind: 2002 and 1997

[Includes quantity and cost of materials consumed or put into production by establishments classified only in this industry. Data based on the 2002 Economic Census. For information on confidentiality protection, nonsampling error, and explanation of terms, see note 2 at end of table. For meaning of abbreviations and symbols, see introductory text]

Material code	Material consumed	Quantity	Delivered cost (\$1,000)
322214	Fiber can, tube, drum, and similar products manufacturing		
00900001	Total materials	X	1 008 224
2002..	X	1 224 660
1997..	X	
32210005	Paper and paperboard (excluding boxes and containers) 1, 000 s tons	q1 246.9	591 265
2002..	P1 590.7	683 671
1997..	X	
32610021	Fabricated plastics products (including closures, ends, film, strapping, etc.)	X	27 766
2002..	X	21 771

1997..	X	
00971000	Materials, ingredients, containers, and supplies, nsk	X	66 335
2002..	X	101 694
1997..	X	

Note 1: For some establishments, data have been estimated from central unit values that are based on quantity-value relationships of reported data. The following symbols are used when percentage of each quantity figure estimated in this manner equals or exceeds 10 percent of published figure: p-10 to 19 percent estimated; q-20 to 29 percent estimated. If 30 percent or more is estimated, figure is replaced by S.

Note 2: The data in this table are based on the 2002 Economic Census. To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C.
